

Harvest

Planting tomorrow's crops today

Welcome to the Harvest System!

<https://harvest.caes.ucdavis.edu/>

Here are some tips to get you started

From the home page, use the Quick Actions menu:

QUICK ACTIONS	
View My Projects	← Click here to see a list of your projects
Request New Project	← Click here to start a new project

Starting a new project:

Create Field Request

When to Start? When to Finish?

Which type of crop will we grow?

- Row Crops
 Tree Crops

What crop(s) will we grow?

Search for common crops or add your own

This drop down will show commonly used crop types. You can also enter new crop names.

Who will be the PI?

Search for person by email or kerberos

Principal Investigator is required

PI will default to your name and email address. If you are entering a new project where someone else will be the PI, click the grey [x] on the right and then search for the PI by email address.

Want to attach any files?

No files selected.

Tell us about your project!

What are the requirements?

Enter a full description of your requirements

Add attachments, describe the requirements that are specific to your experiment or project.

Create Field Request

How to get help

At the top of the screen, click the Help button

Question about your project or billing?

Please open your project and submit a ticket from there
